# READ CAREFULLY.

**W**HILE a great many buyers know the advantage of buying from catalogue, there are many others who have never given the subject any thought. For this reason we want to present our argument.

Do you stop to consider what it costs a house to send a man to solicit your trade? Traveling expenses and salaries run into big amounts very quickly. If we sent out travelers the first effect would be to cause us to advance our prices very greatly to meet the additional expense. What it would cost us in this event it costs other houses now. Then, when you go to the store, it very frequently happens that you cannot spare the time, and you are therefore at considerable loss in buying that way; also, the storekeeper has to have his force of clerks who, for the greater part of the day, have nothing to do. This is an expense to him, which he meets by adding to the cost of his goods enough to cover it.

Again, the question of price. No store or salesman dealing face to face with the customer can resist the temptation of having a sliding scale of prices, and you lose time dickering about price and are never sure you have the lowest. It is impossible for us to have but one price. We have no chance to dicker. When we name a price, it must be the lowest, or we lose your order.

**OUR WAY** is to bring the store to the customer. This has so many advantages that we believe it the coming way of trading. You buy your goods from our catalogue just when you get ready. If your leisure time is in the evening, you can take up the catalogue, look at the prices and order what you want. If some one comes in, you can lay it down and take it up when you are ready. This saves your time. The catalogue has no waste time to be paid for. After we have paid the postoffice to put it into your hands the expense is over. And whether you ask it a question once a day or once a month, it is a clerk always ready to answer you.

**QUALITY:** The fact that we agree to take back any goods you receive from us which you think are of inferior quality, makes us careful to sell only standard brands. Any article you receive from us we guarantee to be of first quality in every respect. If we have a job lot at any time this fact will be so stated.

**LOCATION:** We are located at Wilksburg, Pa., on the main line of the Pennsylvania Railroad, six and one-half miles from Union Station, Pittsburg, Pa. This gives us facilities for shipping with a low warehouse rent which is an item of saving to us and consequently to you.

**QUANTITIES:** To those who wish to buy in limited quantities, we can say that we are glad to fill orders for the smallest amount; and such orders will have our best attention; however, we cannot sell small lots at the price named for larger amounts: that is, the price named for one is the price for 1 or 11, the price for one dozen is the price for one dozen and less than the next larger quantity. You will see that by not breaking packages we can save in handling, and are thus enabled to make the quantity price.

**TERMS:** To parties who are favorably rated by the mercantile agencies, or who furnish us with reference satisfactory to us, we ship on strictly 30 days time, 2 per cent. off for cash in 10 days. 30 days does not mean 31 days, nor do the 10 days for which we allow the cash discount mean 11 days. All accounts over 30 days old subject to sight draft, without notice, with expense added.

**DISCOUNTS:** The prices quoted in this list are NET. There is NO DISCOUNT except the regular 2 per cent. for cash as above noted.

Destroy all previous catalogues and supplements. Prices subject to change without notice. All prices F. O. B. cars Wilksburg, Pa.

# BUILDERS' HARDWARE.

## FINISHES.

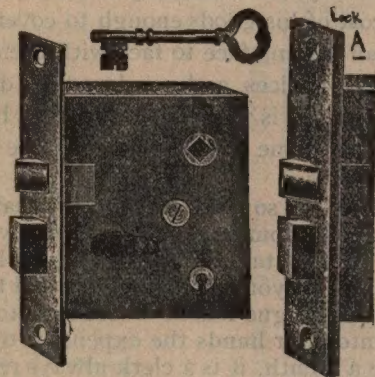

**TUCKER**—The dark brown color like Amber, German, Tuscan, etc., on figured goods.

**3 FINISH**—Bronze plated surfaces, with black background, like Persian, Geneva, Tokio, etc., on figured goods.

**ANTIQUE COPPER**—Old copper color on plain goods.

**SAND COPPER**—Old copper sand finish on plain goods.

**BRASS**—Highly polished natural brass color on plain goods. This is a beautiful, and at present, very stylish finish, and is much handsomer than the bronze and bronze plated finishes.

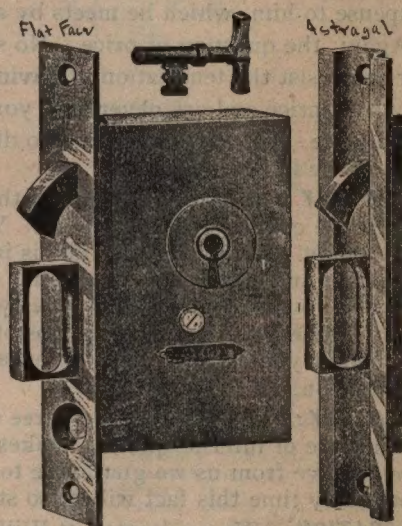

**Regular Lock.**

Packed with all inside mortise sets.

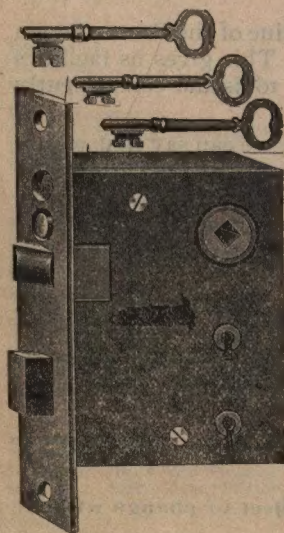

**Lock A.**

Special lock packed with designs pages 4, 5 and 6.

**Sliding Locks Packed With All Sliding Sets.**

Locks for single doors have flat face. Locks for double doors are of two kinds, flat and astragal. Astragal locks are for doors where one door has a half round on edge, and other door with half round hollow on edge.

**Regular Front Door Locks**

Packed with front door sets, pages 4, 5 and 6.

## PITTSBURG DESIGN.

This is by far the most popular design we have ever had. When looking for door trimmings one generally wants the handsomest thing to be found, taking price into consideration. We show here a beautiful pattern, the best we are able to get, and the cost is down at the right place. Our friends like these goods at once as seen on our sample boards, and when the prices are named the order is ours.

## Front and Vestibule Sets.

Front door sets are complete, having mortise lock with night latch, 2 latch keys and 1 dead bolt key, 1 pair swivel spindle knobs, 1 large outside escutcheon, 3x10 $\frac{1}{2}$ , and one keyhole escutcheon inside. Vestibule sets are complete with mortise latch, 2 keys, 1 pair swivel spindle knobs and 1 long outside escutcheon 2 $\frac{1}{2}$ x8 $\frac{1}{2}$ . Locks and latches have heavy cast brass face, bolts and hub. Faces of locks and latches finished to match trim.

Niles Wrot Spring Hinges—Double  
Acting.

SECTIONAL VIEW OF HINGE

We believe this to be the best hinge on the market.

The price is right.  
No sagging of door. Easily put on. No jamb strip required. Case hardened steel. No mortising into jamb. Bushings and spindles. No projections outside of doors. Large bearing surfaces.

In ordering state thickness of door and finish wanted. Price, per pair:

	Japanned.	Antique Copper.
Doors, 7/8 and 1 in. thick.....	\$ .90	\$1.70
Doors, 1 1/8 and 1 1/4 in. thick.....	1.20	2.00

Blank.

Champion Double-acting  
Spring Hinges.

Japanned. For 1 1/8 in.  
doors.  
Hinges, per pair....\$1.20  
Blanks, per pair.... .60

The "Chief" Floor  
Hinge.

Floor hinges are now the popular thing. The great objection has been the cutting out of floor to receive box. In this hinge the spring is all above the floor, being cut into the lower end of the door, and the floor plate is screwed right on surface of floor. Tension of spring can be adjusted any time after the door is hung.

Dozen .....25c

**Door Checks and Springs.**

When your door slams it annoys you; when it slams and breaks a glass panel it costs you money and annoyance both. When some one leaves it open in cold weather you are again annoyed, and when several people leave it open your heat bill will begin to run up. Why not buy a check and spring and be done with these troubles?

The "Corbin" door check and spring is known and has a reputation among the leading architects of the country. It is in constant use in the most prominent buildings in all cities of the union. You cannot get anything better because there is nothing better made.

Easily attached and regulated and operates perfectly under all conditions. Never leaks or gets out of order. Not affected by extremes of temperature. Mechanically perfect in every detail.

No. A. For light doors . . . . . each, \$2.25  
No. B. For inside doors . . . . . each, 2.35  
No. C. For outside doors . . . . . each, 3.50

### Corbin Door Holders.

The best made, operated entirely by the foot. Rubber end in bolt, holding firmly at any point.

## And Quality Count.

## Disston Saws,

The saws made by Henry Disston & Sons have been famous for quality for years, and the reputation earned in this time will be protected. Any defective saw is exchanged without any question being asked. We do not offer any cheap substitute, but sell only the original, genuine goods. Do not be deceived by offers of a saw "just as good."

## Disston &amp; Sons' No. 16,

Made from spring steel. Polished and carved apple handle. Improved screws. Blade set well up in the handle. Warranted.

18 inch Panel, 8 to 12 points; each .. ..\$1.10

For Our Next Catalogue.

**Bench Planes.**

We have taken up the sale of Ohio Tool Co. Planes. They are offered as the very best goods which can be produced. The objection to metal planes has been that the bit was so light that it would "jump" when striking a knot. These are heavy enough to cut through. Made in smooth and corrugated face. Corrugated sent unless otherwise ordered.

	No.	Length.	Cutter.	Each
Smooth .. ..	04	9	2	\$1.30
Jack .. ..	05	14	2	1.45
Fore .. ..	06	18	2 1/2	1.85
Jointer .. ..	07	22	2 3/4	2.15
Jointer .. ..	08	24	2 3/4	2.60

To those who prefer the Bailey Plane, made by Stanley Rule & Level Co., we offer their highest quality at the following low prices

	No.	Length.	Cutter.	Each
Smooth .. ..	4	9	2	\$1.40
Jack .. ..	5	14	2	1.60
Fore .. ..	6	18	2 1/2	2.05
Jointer .. ..	7	22	2 3/4	2.40

Corrugated face sent, unless otherwise ordered.

**Wood Bench Planes.**

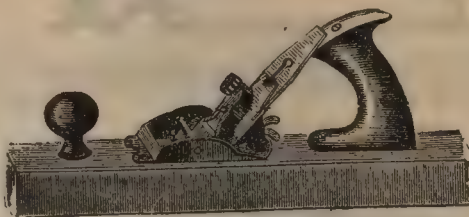

Ohio Tool Co. goods—made with screw adjustment, for putting bit out or in, and Lateral lever for squaring bit with the face of the plane. We say the same about quality as about the iron plane.

	No.	Length.	Cutter.	Each.
Smooth, no handle...	024	8	2	\$ .80
Smooth, handled ..	035	9	2	1.00
Jack .. ..	027	15	2 1/2	1.00
Fore .. ..	029	20	2 3/4	1.10
Jointer .. ..	031	24	2 3/4	1.20

**Rabbit Plane and Fillester.**

arm to which the fence is secured can be turned into either side of the stock, making a left hand Fillester, with adjustable spur gauge. Remove the fence arm, and a Rabbit Plane is secured, which can also be used as a Bull Nose Plane.

1/2 in. long, 1 1/2 cutter; each .. .. \$1.00

**Stanley Wood Plane.**

This Plane is made by Stanley Rule and Level Co. Sets bit with a lever.
